**TO WHOM IT MAY CONCERN**

This is to be certified that M/s. Middle East Technical Services Est. (METS) has participated with us in PP7 3<sup>rd</sup> Extension Project (SEC-COA Contract No. 10321105/00) for Installation of 132kV Cable Circuit.

METS has performed the engineering & design, supply, Installation and Testing & Commissioning for 132kV 1600SQmm XLPE Cable Circuit (Three SF6 Sealing Ends & three outdoor Sealing Ends) including the cable laying services. The GIS bays were Non-IEC Type and METS has successfully engineered/ designed and installed a suitable adapter flange in order to erect the IEC-Type SF6 Sealing End.

METS carried out their work with quality service, high workmanship and complete the job well in time.

This certificate has been granted to METS upon their request for whatsoever purpose it serves. .

Best Regards,

  
Ghaleb Hussein  
Project Manager
