RECOMMENDATION CERTIFICATE

To Whom It May Concern,

We would like to bring to your kind knowledge and information that **Middle East Technical Services Est. (METS)** as Main Contractor has successfully completed the works for SEC-EOA Contract No. : SFC 32004/06 - Rerouting and Installation of 132KV Cables for Two (2) Units and Testing of Protection and Control System with 132kv GIS Substation at Arar Power Plant.

During the execution of **METS Scope of Work**, we found that they are well organized, equipped, well trained , fulfilling their commitments, deadline and contractual obligations on time with Client and METS have carried out their work with High Quality Level of Services and Workmanship.

Due to their excellent performance in executing the above project, we highly recommend METS to execute similar projects in the future since they are capable of executing and implementing any projects beyond our expectations.

Best Regards,

Jamil M. Al-Mutairi, Manager
Engineering & Projects East Department
Saudi Electricity Company
